

Hi, I'm Jacob Drawhorn.

Professional Summary

Full Stack Software Developer, dependable and friendly with strong drive to succeed.

Experience

- **LIVE PROJECT INSTRUCTOR** Jan 2022 - May 2022
The Tech Academy, Portland, OR
During my time at The Tech Academy, I instructed students through the final portion of their coding boot camps in which they participate in a 2 week sprint simulating real work environments within the software development and IT industries. I was involved in the creation and management of a variety of projects including UI/UX Design, Python, C# and .NET, DataScience, and Web Development. This position allowed me to become proficient in an array of technical tools and software languages.
- **SOFTWARE DEVELOPER INTERN** Oct 2021 - Dec 2021
Prosper IT Consulting, Portland, OR
As a Software Developer Intern at Prosper IT Consulting, I worked on 2 very different projects both managed within Azure DevOps. The first was the creation of a large web app hosting a variety of smaller passion projects within. This web app, called AppBuilder9000, was created using the Django Framework in combination with SQLite3. The second project was the creation of a new content management system (CMS) for a local theater company. Built within ASP.NET MVC and Entity Framework, I was tasked with creating the portion of the web app that allowed for users to log their rental returns to a database through an easy to use UI.
- **DOORDASH DELIVERY DRIVER AND SHOE RESELLER** Jul 2020 - Sep 2021
Self Employed, Portland, OR
I worked as a delivery driver and high value shoe reseller.

Education

- **CERTIFICATION IN DATASCIENCE - SOFTWARE**
Feb 2022

The Tech Academy, *Portland, OR*

Completed The Tech Academy's DataScience Boot Camp in which learned an array of data analysis, data presentation, and machine learning methodologies. The following tools were used: Python and R.

○ **CERTIFICATION IN UI/UX DESIGN - SOFTWARE**

Jan 2022

The Tech Academy, *Portland, OR*

Completed The Tech Academy's UI/UX Designer Bootcamp in which I learned a variety of app and web design principles, including mobile app design. I became skilled in the following tools: PhotoShop, Sketch, along with Adobe XD.

○ **CERTIFICATION IN FULL STACK SOFTWARE DEVELOPMENT - SOFTWARE**

Dec 2021

The Tech Academy, *Portland, OR*

From June 2021 to December 2021. I attended the Tech Academy's Software Development Bootcamp. During this time, I learned many technical tools, both front end and backend, that provided me the skills needed to be a qualified Full Stack Software Developer. I took the following courses during this Bootcamp: Computer and Technology Basics, Overview of Software Development, Version Control, HTML and CSS, JavaScript, DataBase and SQL, Visual Studio, C# and .NET, and Python.

○ **COMPLETED ONE YEAR AS A PHYSICS MAJOR - PHYSICS**

University of Oregon, *Eugene, OR*

Completed one school year at The University of Oregon's as a physics major. I took a variety of high level math classes up to Vector Calculus 2. I also completed a variety of calculus based physics classes, greatly improving my ability to think logically, and problem solve.
